### The Perfect Solution for Beautiful Nails

Are you finding that your nails will not grow because they keep splitting and are thin, but you don't want false or acrylic nails? Why not try **Bio Sculpture Gel** which turns your nails into beautiful, manicured hands?

This non-acrylic Gel encourages your own nails to grow because it is protein based. The Gel is painted onto your own nails, then hardened under a special UV lamp. The finish can either be left natural looking with a clear Gel, or a French Manicure finish, or you may prefer a beautiful colour. What is so wonderful is that your finished nail will not chip or fade and will last 2-4 weeks by which time you will need an infill. This means that the nail has grown so new Gel needs to be applied over the re-growth for the perfect finish. The whole process takes about 1½ hours.

Bio Sculpture Gel causes no damage to your natural nails, and applies cleanly and comfortably. There are no fumes, no odours and virtually no buffing dust.
